PROFESSIONAL SUMMARY

Data & IT analyst in training at Universidad Torcuato Di Tella (merit scholarship) with real-world experience managing critical data in a healthcare setting. Combines hands-on proficiency in SQL, Python, and R with strong communication skills proven through teaching university-level subjects. Currently completing an administrative internship in Executive Education at UTDT while continuing to build technical experience in data and software development.

EXPERIENCE

Operations & Data Intern · UTDT — Executive Education, Argentina *Jul 2026 – Present*

- Supporting invoicing, collections, and vendor payment reconciliation across the In Company, Open Programs, and R.E.D. Corporate Diversity Network business lines.
- Managing Open Programs enrollments: registrant records, payment and invoice tracking, and scholarship/discount documentation.
- Maintaining organized records (invoices, purchase orders, contracts) and preparing administrative reports in coordination with Central Administration and Treasury.

Teaching Assistant (Auxiliary Professor) · PADI, Argentina *Sep 2025 – May 2026*

- Tutored 15+ students individually and in small groups across Mathematics, Introduction to Programming, Introduction to Statistics, and Statistical Inference, teaching 2–3 sessions per week.
- Co-created and revised 10+ study materials and problem sets, translating complex concepts into accessible content.
- Selected for this role based on academic performance, demonstrating strong domain knowledge and communication skills.

Data Entry Analyst · Labomed, Argentina *Jun 2024 – Jun 2025*

- Reviewed and maintained ~150 patient, doctors and administrative records per week (part-time, ~4 hrs/day) across internal systems and spreadsheets, preserving end-to-end data integrity in a regulated healthcare environment.
- Performed systematic quality control and cross-verification of database entries, identifying and correcting inconsistencies to ensure data accuracy.
- Produced 4 recurring operational reports per month for the administrative area, supporting internal planning and decision-making.
